

Abstract

u A dried, ready-to-eat ^{pet food} cereal product comprising a gelatinized starch matrix which includes a coating or filling which contains a probiotic micro-organism. *u* 5 The cereal product ^{to} may be in the form of a pet food, ~~a breakfast cereal, an infant cereal or a convenience food~~. The cereal product may be produced by cooking a starch source to form a gelatinized starch matrix; forming the gelatinized matrix into pieces; drying the pieces; and coating or filling the pieces with a carrier which contains probiotic micro-organisms. *u*
